#### To the doctor or nurse:

The person with this card has been exposed to chlamydia. The CDC recommends sexual contacts to chlamydia be treated presumptively with:

> Azithromycin 1 g orally in a single dose -OR-

Doxycycline 100 mg orally twice a day for 7 days

Testing for gonorrhea, chlamydia, syphilis and HIV is also recommended

For complete CDC treatment guidelines and other STD information, visit: http://lapublichealth.org/std/providers.htm
